The Image Panel Repair System minimises repair times when compared to conventional methods by working from the outside minimising strip and fit times. Keeping the repair local is the secret behind the system.

### **Improve production**

Minimise strip and fit.  
No more waiting for parts.  
Faster repair turn around.

### **Keep the repair local**

Reduces and in many cases eliminates filling and sanding.  
Make difficult panel repair easy, even for trainees.

### **Healthier repair for the car**

Keep the vehicle original by maintaining manufacturer's welds, sealer profiles.  
Superior repair for your customer and the vehicle.

### **Repair more, replace less**

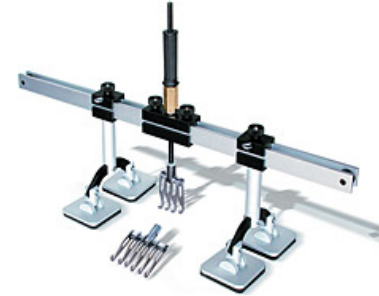

Minimise panel replacement.  
Reduce parts ordering, delivery delay, parts storage.  
Repair instead of replace.  
Save time on strip and fit  
Minimise the removal, storage and refit of modules, speakers and complex wiring etc whilst avoiding the inevitable breakage of trim clips, glass and plastic parts.
